

Logic Model

People's Kitchen & Training Center

Needs →

- Climate change + landfilling reduction**
- Food system infrastructure investment**
- Food and nutrition access**
- Economic development + education**

Inputs →

- Underutilized food
- Planning/staff time
- Expertise/knowledge base
- Equipment
- Space
- Volunteers
- Partnerships
- Community engagement
- Funding

Reach →

- Wholesalers and processors
- Students
- Workforce
- Educators
- Grocery stores
- Low income residents
- Entrepreneurs
- Restaurants
- Legislators
- Media
- Households

Action →

- Landfill diversion
- Climate mitigation
- Logistics pathway development
- Food processing
- Collaboration
- Community engagement
- Building preservation
- Education
- Issue engagement
- Food product development
- Job training and skills development
- Events and classes
- Research + development
- Consulting services
- B2B + B2C products / services

Impact

- Environmental:**
 - Reduction in climate change effects (300 tons Co2e)
 - Replicable model creation
 - Increased awareness of food waste
- Economic:**
 - Job creation
 - Economic development
 - Research and development
